Dear FOIA Officer,

I am performing a HUD noise analysis near the a train yard near the intersection of Lake Street and Wolf Road in Northlake, IL. The rail yard is the Union Pacific Railroad Global 2 location. A map is attached for your reference. Please provide the following information for this area:

- Number of trains per day passing by the site broken down by diesel or electric propulsion.
- The average number of diesel locomotives per train.
- The average number of railcars per train.
- The fraction of daily train operations that occur at night (10PM to 7AM).
- The average train speed.
- Are the track section welded or bolted?
- Are there any whistle stops at crossing in the immediate vicinity? Are horns used opposite the site.

If you have any questions or concerns, please feel free to email ksachs@anderson-env.com or call at (630) 725-0400

Sincerely yours,

Kara Sachs
